## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1-41 are allowed.
2. Claims 1 and 21 are allowable because the prior art of record, taken alone or in combination, fails to disclose or render obvious a method for providing calibrated geometric data from a three-dimensional measurement system, the method comprising, determining a first transformational relationship between the second coordinate frame and the third coordinate frame, wherein the first transformational relationship is determined using the measured geometric data and the motion data contained within the geometric data set, and using the reference object geometric structure data, in combination with the rest of the limitations of said claim.
3. Claims 2-20 and 22-41 are allowable because they are dependent on independent claims 1 and 21 respectively or an intermediate claim.
4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
